

Vince Andrew D. Santoya

+63 9695345084 · hanssantoya@gmail.com · Cebu City, Philippines

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, C#, Python, SQL, HTML/CSS

Frameworks: ASP.NET Core Web API, FastAPI, Django, NextJS, Angular, React

Platforms: Git, GitHub Actions, Docker, Vercel, Bitbucket, Postman, Linux

Practices: Object-Oriented Design, CyberSecurity, NLP, IoT, Agile/Scrum

EXPERIENCE

Industry Exposure – Rococo Software Company *University of Cebu, 3rd Year BSIT (2024)*

- Selected to participate in a specialized subject in partnership with Rococo, replacing a standard course.

President, Philippine Society of Information Technology Students (2024–2025)

Board of Directors, University of Cebu Council of Presidents (2024–2025)

Vice-President External, Philippine Society of Information Technology Students (2023-2024)

PROJECTS

CHRONONAV – Campus Navigation & Scheduling App | React Native, TypeScript, Firebase, OCR, GPS Developed a mobile-first scheduling and navigation system for university students, integrating OCR-based study load extraction, indoor route planning, and intelligent reminders. Designed a modular interface for uploading class schedules, visualizing classroom directions, and receiving time-aware alerts.

Fleur de Gâteau - E-Commerce Cake Shop Website | React, TypeScript, Tailwind CSS, Vite, JavaScript Designed and developed a visually elegant e-commerce platform for a handcrafted cake shop specializing in floral cake artistry implemented a fully responsive interface with dynamic product listings, image galleries, and reusable component architecture optimized performance and build process using Vite, ensuring fast load times and smooth user experience.

AccounTech - Smart Ledger Accounting System | React, TypeScript, Tailwind CSS, Vite, JavaScript Built a comprehensive smart ledger system for managing financial records, transactions, and account summaries. Enabled CSV import/export functionality, modular ledger views, and real-time data updates for efficient bookkeeping. Focused on usability and scalability, providing a modern front-end architecture suitable for small business accounting.

EDUCATION

University of Cebu Main
Bachelor of Science in Information Technology

August 2022 - June 2026

CERTIFICATIONS AND ACHIEVEMENTS

Introduction to Cybersecurity – Cisco Networking Academy

Completed through the University of Cebu, this 6-hour course explored foundational cybersecurity concepts, threats, and career pathways in information assurance and security.

Issued: March 18, 2025

CCNAv7: Switching, Routing, and Wireless Essentials –

Cisco Networking Academy Completed through the Cisco Networking Academy program, this course covered foundational networking concepts including switching, routing protocols, wireless technologies, and network security essentials.

Issued: January 2, 2025
